Orchid growers have very specific needs that are often difficult to meet. They are always looking for new sources of potting mixes, clay and plastic pots, fertilizers, and insect control products. Some may grow in greenhouses, others in indoor cases, on windowsills and under lights. They need misters, thermometers, light fixtures, hanging devices, shade cloth, light meters, other monitoring devices, and, of course, new orchids!

Does your firm have such products? We can provide exposure to the growers who need you, through our newsletter and/or website for very reasonable rates.

The Victoria Orchid Society newsletter will accept advertisements for their monthly publication (except July & August) under the following conditions: Advertising is limited to one page of the newsletter comprised of ads of a maximum size of two business cards. Advertising space on the web is not limited. www.victoriaorchidsociety.com
